The three-stateroom Marquis 720, the flagship of the Marquis line, is simply breathtaking in both its outer and inner beauty. Step inside the salon, and you’ll see open-grained, oak hardwood cabinetry, warm Brazilian cherry wood, and handmade leather furniture. Solid granite countertops and flooring, plus lush pile carpeting in each stateroom, infuse the 720 with a feeling of world-class elegance and quality from stem to stern.

But the beauty of the 720 goes much deeper than what you see on the surface. Beneath her sleek outer lines and exotic interior spaces lies the beating heart of a yacht that is capable of long-distance cruising without sacrificing ease and comfort. That’s due to a hydrodynamic hull design that assures a smoother entry in rough seas and optimum cruising speeds at lower throttle settings. What’s more, we have carefully selected all propulsion, navigation, communication and electronic systems to provide maximum reliability and enhance your experience on the water.

That is the essence of a true flagship, one that will be well worthy of your consideration.
Salon — The spacious salon features rich hardwoods and fine leathers. Its open design allows for effortless entertaining, from the galley to the lounge, and offers stunning panoramic views.
The 720’s exquisite master stateroom, located amidships on the lower deck, incorporates an island California King bed with innerspring pillowtop mattress and hand-sewn leather appointments, nightstands, open-grained oak hardwood dresser and cabinets, two walk-in closets, Italian sconce lighting and deep pile carpeting. The master bath has marble flooring and countertops, plus a large, tiled, walk-in shower.
Dining — The beautifully appointed galley provides custom cabinetry, solid granite flooring and countertops, and all the appliances, including a full-size Jenn-Air® refrigerator/freezer, full-size range with oven and four-burner cooktop, microwave/convection oven/broiler, and coffee maker. The Skylounge dining area, which easily accommodates eight adults, features an ultraleather lounge with high-gloss wood table, starboard-side bar, two-basin sink and plenty of storage.
Companionway/Foyer — The companionway to the lower deck incorporates a gracious foyer with open-grained oak hardwood, Italian marble flooring, and elegant oak wood trim. From here, guests may access the generous VIP guest stateroom located forward, with its queen-size island berth, innerspring pillowtop mattress, plenty of storage and private VIP head, or the guest stateroom to port with its twin berths and guest head.

CONSTRUCTION

• Cabinetry - marine-type with doweled & dove-tailed joints, metallic joint reinforcements, stainless steel & silicon bronze fasteners, custom fit
• Open grained, select hardwood bulkheads, cabinetry & mouldings throughout cabin
• Cored hull sides - fiberglass encapsulating high-density foam core below the waterline & endgrain balsa core above the waterline
• Deck plate - 1.75” (4,4 cm) tubular aluminum rails & 1.75” (4,4 cm) endgrain balsa core encapsulated in fiberglass; mechanically fastened & laminated to hull sides around entire circumference; comprises fore deck, side decks & cockpit sole, & main cabin under-sole
• Hull bottom - solid fiberglass with Knytex substrates; sandblasted in preparation for bottom paint assures adherence and eliminates the “peeling effect”; vinylester barrier coat
• Stringer system - molded fiberglass grid on hull sides & bottom, high-density foam core
• Structural engine mountings - linear span, longitudinal rail system with multiple-gusseted steel plates bolted through reinforced, high-density foam-cored stringer members
• Superstructure - unitized flybridge & deck house construction, self-supporting, aluminum truss cage system configured as monocoque structure, welded to base frame of aluminum bar stock, mechanically fastened to main cabin upper-sole (1.75” (4,4 cm) tubular aluminum rails & 1.75” (4,4 cm) endgrain balsa core encapsulated in fiberglass), assembly bolted to deck plate through drilled-&-tapped reverse flange mount reinforced with aluminum bar stock
• U.S. Navy-style construction with hull & deck plate forming integrated structural element; “boxed-beam” reinforcement with minimum 1” (2,5 cm) thick structural bulkheads triple-bonded on their circumference
• Window systems - frameless; tinted, tempered safety glass flange-mounted with urethane adhesive/sealant; supported by aluminum truss system
